

## DON'T LET THEM DESTROY OUR

### WATER

Digging causes erosion and feces pollute our water.

### FISH

Trampling damages our waterways where fish and salamanders live.

### BIRDS

Ground nesting bird habitats are destroyed.

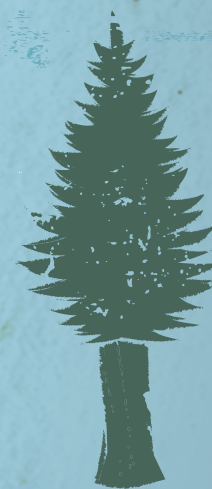

### CROPS

Erosion threatens the livelihood of farmers.

### LIVESTOCK

Diseases can be transmitted to other species and can make cattle, horses and goats sick.

### ENVIRONMENT

Native fish and wildlife habitats are diminished in their quality and quantity.
