BioBlitz: Round 2

Name: _____ Date: _____

Question	Response	Source
Species name	Common: Scientific:	
Species description. What do you observe?		
Where is the species from?		
How/when did the species get to the United States?		
Has the species been found in Washington? If yes, where?		
Is this species a threat to Washington? Why or why not?		
How is this invasive species so successful at spreading? (e.g., breeds early, makes lots of seeds, etc.)		
How can we prevent and/or get rid of this species?		
Create and answer your own question about the invasive species:
