

Dataset vs. Map

Name: _____ Date: _____

Use the data set provided by your teacher to answer as many of the following questions as you can.

Once you cannot answer any more questions using the data set, your teacher will provide you with a map created using that data set. Using the map, answer the remaining questions.

1) Which invasive species were reported?

- _____
- _____
- _____
- _____
- _____

2) Which invasive species was reported the most?

3) Which invasive species was reported closest to the city of Chapel Hill?

4) Did these first detectors report any invasive species in University Lake?

5) Which invasive species was found in the Carolina North Forest?
