

First Detector Survey Datasheet

Name(s): _____

Site Name/Address: _____

Fill out as much information as you can. Make sure you put enough information so you can lead your teacher back to where you found the invasive species.

Write your observation in the "Notes" section. Helpful notes include information such as the following:

- What was the species doing?
- How many were there?
- Does it have any unique characteristics?

Invasive Species	Date Observed	County	Location	Notes

Drawing

A large, empty rectangular box with a black border, intended for drawing the observed insect. It occupies the bottom half of the page.
