

Example First Detector Survey Datasheet

Name(s): José Lopez, Jan Smith, and Myra Shah

Site Name/Address: 1111 Washington St. SE, Olympia, WA 98502

Fill out as much information as you can. Make sure you put enough information so you can lead your teacher back to where you found the invasive species.

Helpful notes include information such as the following:

- What was the species doing?
- How many were there?
- Does it have any unique characteristics?

Invasive Species	Date Observed	County	Location	Notes
Scotchbroom	3/15/2019	Thurston	Olympia, WA The scotchbroom is by the back fence, between the tennis court and the big Douglas Fir.	There is a large patch of scotchbroom behind my school. The patch is about 10 feet long and 20 feet wide. They are about 3 feet tall. It has a lot of yellow flowers.
