

Reporter	Invasive Species Common Name	Scientific Name	Date Observed	County	Location		Notes
					Latitude	Longitude	
iNaturalist Database	Tree-Of-Heaven	Ailanthus altissima	8-Nov-17	Orange, NC	35.9006	-79.0405	
iNaturalist Database	Chinese Privet	Ligustrum sinense	5-Nov-17	Orange, NC	35.92178	-79.0622	
iNaturalist Database	Glossy Privet	Ligustrum lucidum	11-Oct-17	Orange, NC	35.90033	-79.0553	
iNaturalist Database	Glossy Privet	Ligustrum lucidum	8-Oct-17	Orange, NC	35.91031	-79.0455	
iNaturalist Database	Glossy Privet	Ligustrum lucidum	5-Oct-17	Orange, NC	35.91867	-79.0543	
iNaturalist Database	Brown Marmorated Stink Bug	Halyomorpha halys	26-Sep-17	Orange, NC	35.87765	-79.0363	
iNaturalist Database	Glossy Privet	Ligustrum lucidum	21-Jul-17	Orange, NC	35.90934	-79.0715	
iNaturalist Database	Brown Marmorated Stink Bug	Halyomorpha halys	15-Apr-17	Orange, NC	35.93899	-79.0853	
iNaturalist Database	Brown Marmorated Stink Bug	Halyomorpha halys	6-Oct-16	Orange, NC	35.88972	-79.0452	
iNaturalist Database	Brown Marmorated Stink Bug	Halyomorpha halys	24-Sep-16	Orange, NC	35.87621	-79.1263	I found this on my drink outside of Caribou.
iNaturalist Database	Brown Marmorated Stink Bug	Halyomorpha halys	11-Sep-16	Orange, NC	35.96814	-79.0224	
iNaturalist Database	Glossy Privet	Ligustrum lucidum	17-Nov-15	Orange, NC	35.90814	-79.073	Growing in standing water in an area that remains wet year-round.
iNaturalist Database	Brown Marmorated Stink Bug	Halyomorpha halys	6-Apr-14	Orange, NC	35.93838	-79.0535	
iNaturalist Database	Brown Marmorated Stink Bug	Halyomorpha halys	22-Mar-14	Orange, NC	35.92864	-79.0341	
iNaturalist Database	Amur Honeysuckle	Lonicera maackii	6-Oct-13	Orange, NC	35.88852	-79.0155	

This dataset came from first detectors, like you, in Orange County, North Carolina. North Carolina is a state on the east coast. It has many different habitats, such as the ocean, agricultural areas, and mountains, just like Washington. In Orange County, there is also a big university called UNC-Chapel Hill, so lots of new people from all over the world travel to and from that area each year. All of these characteristics (diverse habitats, ocean access, and people traveling from around the world) make for great ways for invasive species to spread. Use these data to answer your teacher's invasive species questions and to see how it compares to your invasive species data.
